

IP65 NCCB LED Ready

- Polycarbonate Construction
- Stainless Steel clips
- Attachable Microwave option
- Integral Emergency option

Non Corrosive luminaire, ideally suited to plant rooms, car parks and exposed communal areas where energy savings are looking to be achieved. Supplied with stainless steel clips and an all polycarbonate IP65 body with injected polyurethane gasket, suitable for mounting on conduit through wiring and suspending on chain or catenary wire. The luminaire is wired as standard with live and neutral at opposite ends of the fitting, wiring for German style tubes on request.
